Dear Tom,

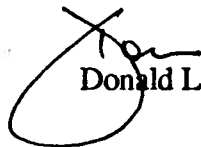

Thank you for your return message regarding the Economics book. Unfortunately, when the teacher did not receive more braille from us, she brailled the parts that the student needed as he proceeded through the course. As a result, she informed me by phone that she is cancelling the order. I know that this is not good news for you, and let me assure you that it was not good news to me either. At any rate, please continue brailing until you come to the end of the next volume and return the book and the disc at that point.

Finally, I checked my correspondence file from you, only to learn that I do not have the letter from New Jersey. The only thing that I did find is a sentence in one of your letters to me to the effect that you would obtain and send me a copy of the New Jersey letter.

Finally, your request of me to make and send another copy of the BEX disk slipped my mind, but we have since asked Frank Irzyk to make and forward a copy to you. You should have it in a week or so.

Feel free to call me if you have any questions.

Sincerely,

Donald L. Sundell
