REPRESENTING

(Please call 731-2234 if you experience transmission difficulties)

COMMENTS:

Please call me with confirmation of Receipt at 731-2234.

May 21, 1992

I was to appear to give testimony this morning at 10:00 AM in regard to Bill in the House in relation to underage drinking.

I was notified the time has been changed to 1:00 PM this afternoon.

I am not available at that time but I wish that my testimony be given in writing which is on the following page.

Thank you,

Charlotte Wakefield

May 21, 1992

1. I support the change in the time period for the retention a driver's license from a 90 day time period to a 45 day time period.
2. I strongly feel that an educational program should be mandatory not only for the offender but also for the parent(s).

Retention of drivers license is good in regard to a punishment level for an offender. A 90 day time period for the adolescent age group is too long and pushes past the frustration level and is of no value.

For the adolescent age group punishment and education go hand in hand for good discipline. This is why it should be mandatory. What good is punishment without discipline.

Our children are our future. What will that future be like without good discipline?
