

## TESTIMONY of WILLIAM E. BLAKE

Sidney Harris once said: " It is no accident that first moral fables were written by a slave: only those who suffer injustice can have a true insight into what justice consist of. Where as those who benefit from it have a hundred ways of rationalizing it into something else.

Our nation is fighting a civil war on values and we look ahead to the future with greater consequence.

Lets begin to clarifying what we do not want.

We do not want to hear lies from unethical judges, corrupt attorneys, unfit psychologists, mentally unstable women, and unqualified employees of children and youth services telling us there are no false reporting of child abuse when the statistics prove that 70% of all child abuse cases are false.

We do not want to be separated from our children or see our children abused through a degenerative family court system.

We do not want to be diagnosed by psychologist who have never met us that submit fabricated stories and false allegations in court proceedings.

In relation to House Bill 826, I must report the facts as concerned in my individual case as to the substantial misrepresentations by my ex-abuse.

As a matter of court record Martha Blake has been in contempt of a temporary order since September 1987.

On or about August 9, 1987, Martha Blake wrote me a personal letter which stated in part: "Marla and Jodi love you very much." See Exh. A

On December 1, 1988, Martha Blake testified at an equitable distribution hearing and said: "Oh my husband, I mean, he was very good, taking care of the children". See Exh B. line 23, page 17.

On May 5, 1988, Dr. Neil Rosenblum wrote a defamatory and fabricated psychological evaluation without my knowledge. The prime purpose was to gain control of the marital assets, custody of the children, and gain support through this unlawful activity. He was referred to Mrs. Blake by her shyster attorney, Robert Garvin from the firm of Goldberg and Kamin.

In part the following statements were made by Mrs. Blake: "the girls have been exposed to so much to this type of behavior that they are also afraid of their father." "the girls have been generally afraid to visit their father." "Marla (7 yrs old) has written essays in school expressing how bad her father is and how she hates him." "her husband has also been nasty towards the girls."

Rosenblum states in Marla's interview: "She spontaneously verified many of the problems which her mother had related to me." "Marla feels that her father is definitely bad and that he has been doing mean things for quite some time." Marla feels that her father was nicer in the past but states that the last year he has been very bad and very nasty to her mother."

The fact is that I have been separated for one year and had little contact with Mrs. Blake. Mrs. Blake voluntarily terminated child visitation in March 1987, without the consent of the court.

In Jodi's interview Rosenblum states: "She said that her father would not hit her but did confirm that her father has hit Marla in the past."

In Marla's interview she never mentioned of being hit.

Rosenblum also stated: "Jodi does not feel that she misses her father and as Marla, feels she does not want to visit him." "The girls tended to stay close to their mother and were reluctant to interact with me."

In Rosenblum's conclusion he stated: "Although it certainly would be helpful to have the opportunity to interview Mr. Blake,...etc." "I have had an opportunity to review some of Marla's essays about her father and they are indeed sad and disturbing." "As a professional I have rarely recommended that a parent not be allowed to visit his children, but in this case I believe there is justification..etc."

Although, Rosenblum's report states the father is unfit, the children were living with the mother. Rosenblum was used a hired gun to furtherance the scheme to interfere with custody. His report was defamatory, unethical and unprofessional. He's nothing but a liar and a disgrace to his profession.  
He supported Mrs. Blake's lies.

Consequently he was sued by the Pennsylvania Department of State for his un ethical practices. Docket No. \_\_\_-Misc-71 File No. 86-63-01749. He has been linked to Judge Kaplan in a rash of complaints to destroy family relationships. See **Exh. C**. He is also retained by the Children and Youth Services of Pittsburgh even though these abuses were reported to them.

Subsequently, on March 25, 1990, Dr. James E. Wetzel, wrote another evaluation with out interviewing me. He stated: "it is hard to understand how contact with Mr. Blake and his daughters is in the girl's best interest."  
However, He asked Jodi to draw a picture of her family. Jodi drew her mother, sister and herself. Jodi drew herself the largest. (From interviews with my own psychologists this indicates that her mother and sister were less important). Jodi also stated: "it is her mother who spans her"

Marla drew a picture of a house with a very light colored crayon, and then too a dark crayon and scribbled all over the drawing of the house. (according to the interview with my own psychologist Marla is depressed).

Wetzel's conclusions are upside down when recommendation the father is unfit when the children are actually living with the mother and show signs of maladjustment. The report was made in February of 1990 and have not had contact with the children since March of 1988.

Accordingly, a psychologists can lie on their reports that are submitted to court and have absolute immunity by Pennsylvania Law. This is wrong and needs to be changed.

The problem arises from the diseased minds of the Family Court Judges of Allegheny County who don't have the decency to be concerned about family values. Judge Leary, Judge Strassburger, Judge Baer, and Judge Baldwin are not qualified to be Judges in the Family Courts. They are bias, corrupt, harass men, and give this crooks their blessings. They need to be removed from their present positions immediately.

Judge Kaplan has been sitting on my custody case since December of 1990. He also made a statement in court that "Children are not important."

Judge Baer sat on my modification of support case for two years.

Judge Kaplan has been sitting on a civil contempt since February of 1990.

Judge Kaplan fined me for wanting to have visitation with my children.

The judges arbitrarily set fees for psychological evaluations.

Those of us who have suffered from the false accusations of child abuse in the Family Division Courts of Allegheny County have to face the world though ridicule that lasts a lifetime.

Respectfully submitted by:  
William Blake

LETTER DATED 8-9-87

-3-

I guess the point I am trying to make is that other people have problems in their marriages and are not afraid to admit and do something about them.

Is our marriage worth saving I, of course, feel it definitely is, but I cannot do it alone. No one is or has lived our lives or paid our bills. I have my own thoughts and feelings on our marriage. People can be very quick to give opinions but do these people really know what went on in the marriage and the feelings each person had for one another.

Bill, you have always made the statement "you & I are all we have" - and it is true. No one is going to love or pay our bills except us.

Maria & Jodi love you very much. You wanted children the very first thing in our marriage and fortunately -

-----

THE MASTER: Can I interrupt for one second. I may have misheard and I want to make certain that I have not. Did you indicate that you have had your real estate license since 1975 or did you mean 1985?

THE WITNESS: I am sorry, 1985. Did you say 1975?

THE MASTER: I thought I may have misheard.

MR. KING: No, that was right.

BY MR. GARVIN:

Q. Was this a decision that your husband agreed to?

A. Oh, definitely. He wanted me -- he wanted me to work.

Q. So you began in 1985 with your limited real estate profession, is that right?

A. Yes, I did.

Q. How did your husband help at all during this period with your employment?

A. Oh, my husband, I mean, he was very, very good, taking care of the children. Because I found out after I started working real estate, you don't do

## Therapist & judge linked in ethics probe

Pittsburgh, PA - Dr. Neil Rosenblum, a court appointed child psychologist, has been linked to Judge Kaplan by the president of the District Psychological Association in McKeesport, Dr. Arthur Van Cara, in a rash of complaints over the last four years that the psychologist and judge worked in concert to "destroy family relationships," according to documents and reports secured by F.A.I.R.

According to a documentary evidence submitted to the Judicial Inquiry and Review Board in Harrisburg, the psychological association has been trying for four years to revoke Rosenblum's license. They claim that the link between Rosenblum and Judge Kaplan came up time after time in a series of

complaints over the last four years. Judge Kaplan is currently being investigated by the Judicial Inquiry and Review Board.

The reported collusion and unprofessional conduct between Rosenblum and Kaplan first came to F.A.I.R.'s attention when a Pittsburgh member's custody was suspended after eight years with no hearing with the case being turned over to Rosenblum. F.A.I.R. is following this case and awaiting the findings of the investigators.
