HOUSE PROFESSIONAL LICENSURE COMMITTEE**

**Public Hearing on HB 2499
11:00 a.m., Room 205, Ryan Office Building**

**Nancy M. Porambo, President, PA Chapter, AMTA
Retta Flagg, Immediate Past President, PA Chapter, AMTA**

June 2, 2008

Good morning, Honorable Chairman Sturla, and honorable members of the Committee. My name is Nancy Porambo. I am the current President of the PA Chapter, American Massage Therapy Association. I have been in private practice for 18 years as a neuromuscular massage therapist/psychotherapist. I also have Master's Degree in Clinical Health Psychology.

With me today is Retta Flagg, Immediate Past-President of the PA Chapter, American Massage Therapy Association. Retta is also a neuromuscular massage therapist and has been in practice for 22 years. Additionally, we have both been active in the pursuit of licensure through the efforts of the PA Chapter of the American Massage Therapy Association (AMTA) for the past 16 years.

As you may know, this is the third public hearing for massage therapy legislation we have attended. In this testimony, we want to provide you with information pertaining to the need for the regulation of massage. As illustrated by the map I have provided, there are only 12 states that do not regulate Massage Therapy. That number is expected to change to 11 with the addition of Colorado in the coming weeks. Please note, that Pennsylvania is surrounded by licensed states who regulate massage. For this reason, Pennsylvania has been the target for illicit and illegal massage activity. The Pocono, Harrisburg, Philadelphia and Pittsburgh areas have been inundated with businesses that claim to provide massage therapy but are, in fact, massage parlors.

The goal of licensure was to create language that establishes a reasonable scope of practice for massage therapists and sets educational guidelines. The overriding principles have been twofold; the first is to protect the professional integrity that the overwhelming majority of massage therapists have worked diligently to secure; and the second is to protect the public from unqualified therapists and errant practitioners that mask illicit activity under the guise of massage therapy.

In the past two years, there has been ongoing dialogue with the physical therapists as well as the need for numerous legal consultations regarding the intentions and scope of this legislation. We have come to an agreement on language that will allow established massage therapists and new graduates alike to practice massage therapy in Pennsylvania.

The agreement was the result of lengthy negotiations with many stakeholders. We felt it was important to create a scope that did not infringe on other professions and was designed to allow massage therapists to utilize the skills, techniques and knowledge provided in their massage therapy training.

It became evident that in these negotiations, further discussion was necessary regarding the term "mobilization". It is used by both the physical therapy and chiropractic professions and has a legal definition. The term mobilization as defined in Act 27 in 2002 is defined as "a group of techniques comprising a continuum of skilled passive movement to the joints and/or related soft tissues throughout the normal physiological range of motion that are applied at varying speeds and amplitudes without limitation." Joint mobilization, as it is defined legally is beyond our scope of practice. It is for this

reason that the word “movement” was added to our scope of practice so massage therapists would not be restricted from providing movement as part of their massage technique.

Since many massage therapists work within the health care community in Pennsylvania, there was considerable concern and discussion centered on the term “impairment” as it is listed in the restriction section of the bill. The definition of massage therapy includes: “treatment of soft tissue manifestations of the human body in which the primary intent is to enhance health and well-being of the human body without limitation”. In the restriction portion, the language reads: “The term does not include the diagnosis or treatment of impairment, illness, disease or disability.” Massage therapists do not diagnose and we believe the definition of massage allows us to treat soft tissue manifestations and not to directly treat the impairment, illness, disease or disability.

I would like to address several other areas that have been brought to our attention regarding the language in the bill:

- In the definition of massage therapy, the word “the” had been omitted before the words health and well-being. “The” has been reinstated to read “the health and well-being of the client without limitation”. The addition of the word “the” was in the initial agreed upon language with the physical therapists.
- In Section 4 (c), the current make-up of the new Massage Therapy Board of Directors has been structured to include individuals who have been in active, continuous practice for five (5) years or more. Since the AMTA maintains a high level of standards, the new PA Massage Therapy Board of Directors deserves to have massage therapists occupying seats on this board that have long-term practices and have the experience necessary to make decisions on behalf of the massage therapists in the state. We are not in favor of making changes to allow for an individual with less than (5) years of practice to occupy a board seat.
- We would like to suggest that an amendment to this language be made to state: **“has passed a massage therapy competency assessment examination that meets generally recognized psychometric principles and standards, and that has been approved by the Board.”**
- In Section 4, language needs to be inserted that limits the number of school owners sitting on the board to no more than one (1) and shall represent (1) of the required (5) professional members to occupy the board seats.

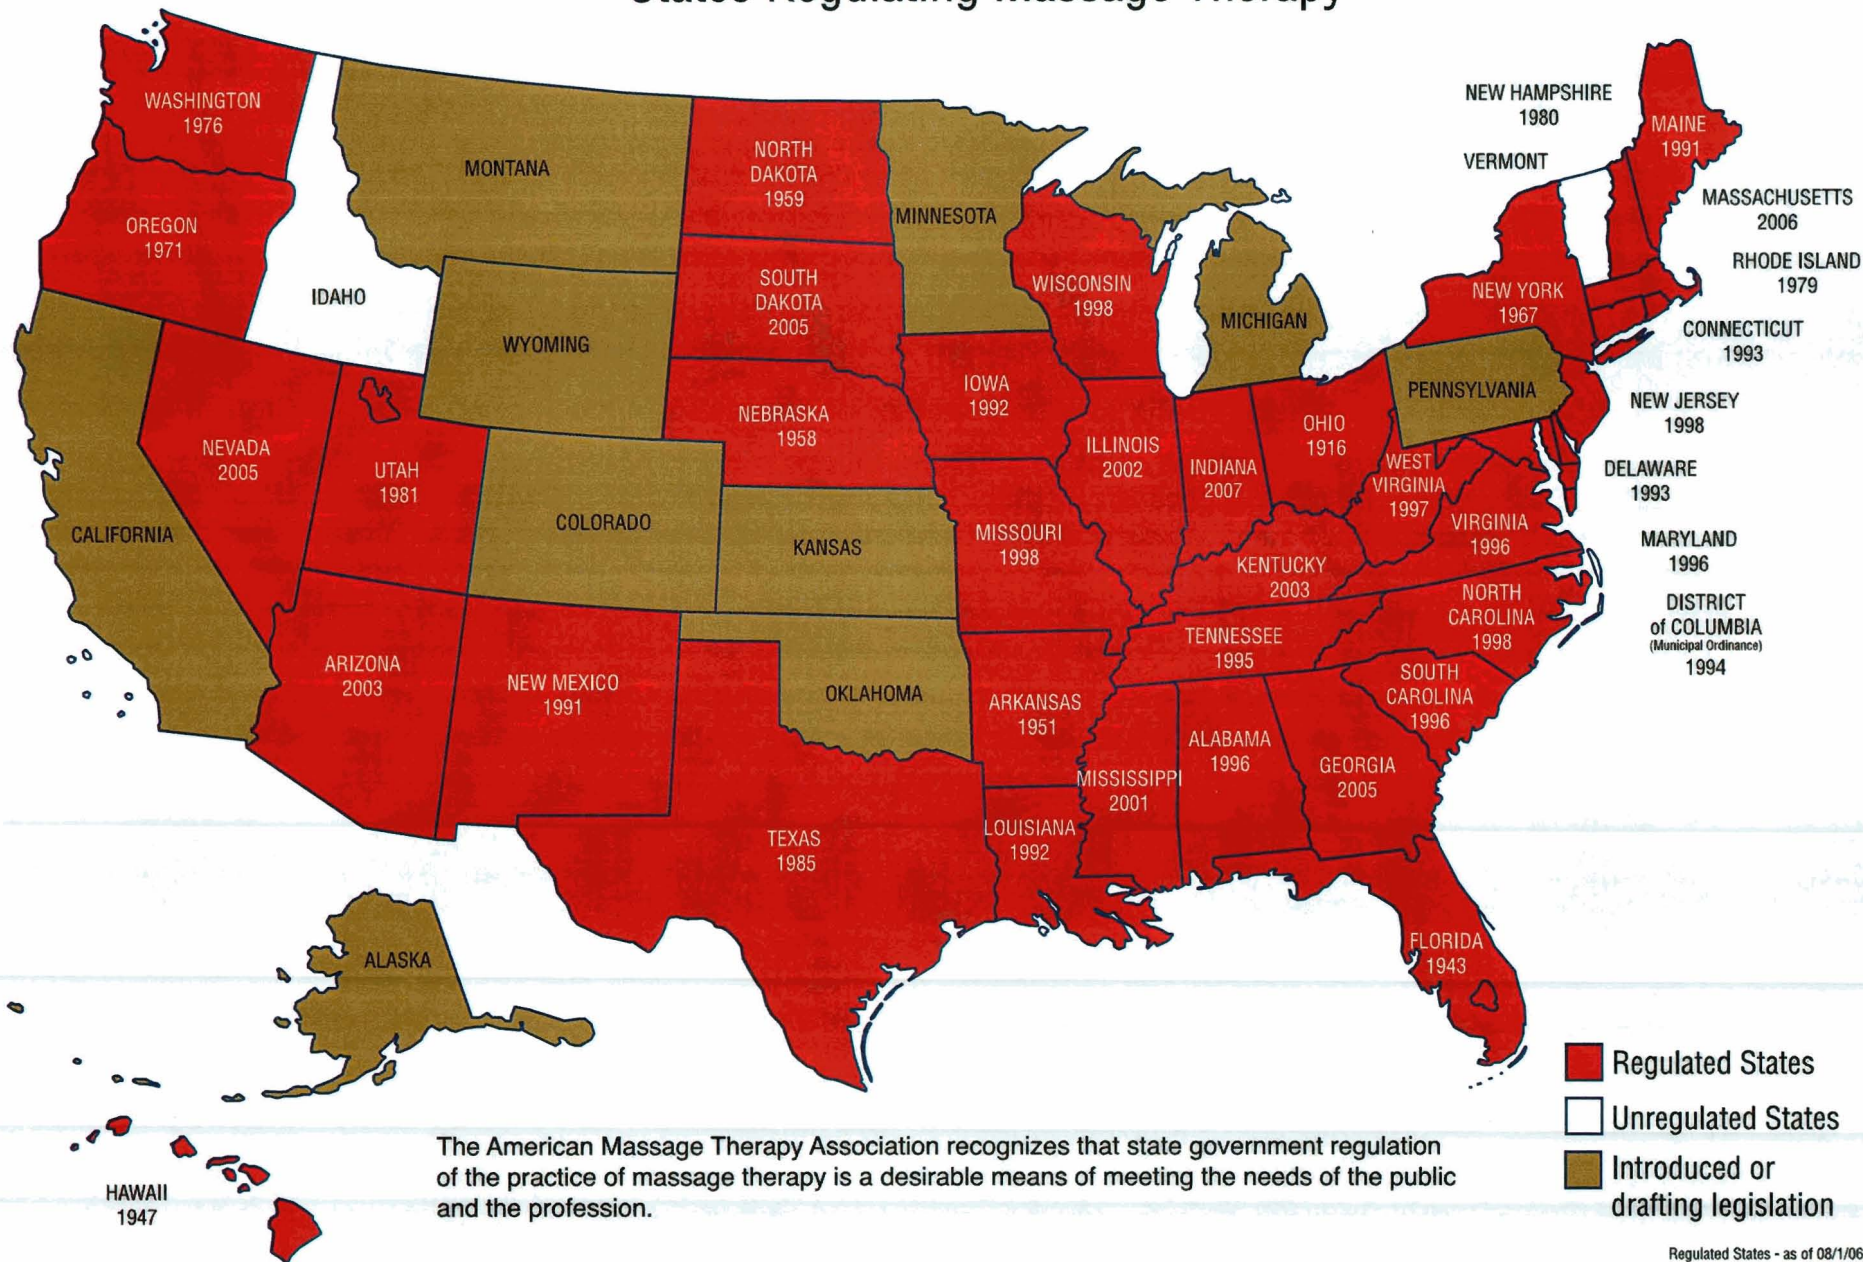

Honorable Rep. Sturla and Honorable members of the Committee, our members have been waiting a long, long time for licensure - 16 years in fact!

We believe it is time for Pennsylvania to join the ranks of other licensed states and protect the public from unlicensed and unscrupulous individuals, set educational

guidelines and be legitimately recognized by the general public. We sincerely thank you for allowing us to present our testimony to you and greatly appreciate your consideration.

Nancy M. Porambo, MS, LMT (GA), NCTMB

States Regulating Massage Therapy

The American Massage Therapy Association recognizes that state government regulation of the practice of massage therapy is a desirable means of meeting the needs of the public and the profession.

TN	<p>Provisional Licensure Process</p> <p>(a) An applicant for licensure may be granted a provisional license to practice massage therapy when the applicant has done the following:</p>

1. Complied with all subparagraphs, except (f) and (o), of paragraph 0870-1-.04 (1);

2 Paid the provisional licensure fee established in rule 0870-1-.06; and

3. Requested that verification be submitted, directly from a certifying or examining organization to the Board Administrative Office, that an application to take the National Certification Examination In Therapeutic Massage and Bodywork or an equivalent type certification examination has been accepted. The examining or certifying organization must also provide the Board Administrative Office with the date on which its examination will be given for the applicant.

(b) A provisional license shall expire without further action by the board six (6) weeks after the date on which the examination used to qualify for the license is given.

(c) A provisional license is subject to discipline for the same causes and pursuant to the same procedures as a full license.

(d) To qualify for full licensure after successful completion of the certifying examination, the applicant need not make a new application but must do the following:

1. Have the documentation required by parts 0870-1-.04 (1) (f) 2. or 3. provided to the Board Administrative Office; and

2. Submit the fees required by subparagraph 0870-1-.04 (1) (j) to the Board Administrative Office;

3. Update any information previously provided on the application which has changed since its original filing with the Board Administrative Office.

(e) If a holder of a provisional license fails the examination, the applicant for licensure may be granted a second provisional license to practice massage therapy when the applicant again complies with subparagraph 0870-1-.04 (2) (a). A second provisional license will be issued and shall expire without further action by the board six (6) weeks after the date on which the examination will be given for the applicant.

(f) If a holder of a provisional license fails the examination after the second attempt, the provisional license will become void without further action by the Board on the date of receipt of the examination results in the Board's administrative office. An individual will not be eligible for a third provisional license.

(g) If a holder of a provisional license does not report to take the next scheduled examination, the provisional license expires on the date of the examination.

(3) Application review and all licensure decisions shall be governed by rule 0870-1-.07.
