To Whom It May Concern:

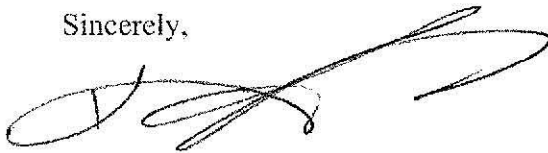

We are an Art Glass Company in the South Side of Pittsburgh offering a variety of glass such as Entryways, Stained Glass, Tempered, Laminated, Etched glass and Shower enclosures etc.

We appreciate the work that the film industry has given us as well as the many challenges they throw our way. We have been working with the film industry for over 20 years and rely on their revenue to keep our Company's Doors open. In today's economy we aren't looking to grow just stay afloat.

I hope that the political decision makers actually do what they say and listen to the Small Business Owners and keep the film industry going in our city. It makes good sense in many other ways for our city. As you know we do not promote our city in any other media (campaign) so it makes good advertising to have our city on the big screen

Lastly, they are a great group of individuals to work with. So please let your decisions reflect that of the public and Small Business Owners and keep the film industry here. It's a win win situation for all.

Sincerely,

Kim Zielinski
President
