Brian Robinson, LORL Research Intern
Guy WR Jensen, Deputy Executive Director

"Stimulus Funds by County"
Inquiry # 0348-09

September 2, 2009

LORL's Response

In response to your question, "*How much stimulus money has each county government in Pennsylvania received to date?*" LORL has the following information.

The American Recovery and Reinvestment Act (ARRA), commonly known as the stimulus money, is allocated by category and distributed by federal departments. All infrastructure (housing, transportation, community development, etc.) and education stimulus funds are readily documented; however, such categories as tax relief, unemployment benefits, and food stamp increases are continuous and fluctuate with eligible applicants. Therefore, this is not factored into the totals reported in the following table: Stimulus Funds Distribution in Pennsylvania.

The ProPublica Report, based upon the Treasury Account Symbol (TAS) Report, reflects traceable, received funds as of July 20, 2009. In contrast, the PA Recovery data, a product of the nation-wide Recovery.gov site, includes some planned state-wide distributions not yet received or not traceable specifically by county. Hence, the second column of the table shows funding totals as a weighted estimation of those broader state-wide distributions.

ProPublica is an association of voluntary investigative journalists that calculated the totals in the above table using information from USASpending.gov, the entity created to oversee stimulus spending, and the Federal Procurement Data System. According to an April 2009 letter from the Executive Office of Management and Budget, there is considerable discrepancy in following the stimulus funding, and figures calculated by USASpending.gov have been shown to carry an average error as high as fifty percent.

Because stimulus funds are organized by the funding department, not necessarily by locality, to calculate the figures in the above table, certain conditions apply:

- State-wide education stimulus funding totals approximately \$2.6 to \$2.7 billion, much of it in funds such as the State Fiscal Stabilization Fund and Special Education (IDEA). A report describing the nature and distribution of these funds is included for your review.
- In the case where a project spans multiple counties, the total funds are assigned either to the primary county or split equally between them where appropriate.
 - o Individual project listings by PA Recovery do not take this into account

The values in the above table do not include tax relief funds, unemployment benefit enhancements, health insurance benefits, or food stamps. PA Recovery does provide an estimate for eligible persons who can receive these benefits per county, but does not provide funding amounts as these figures will vary according to the percentage of eligible persons actually applying and changes in eligible person populations.

LORL hopes this information is useful. Please feel free to contact our office regarding this inquiry or for any future requests. Thank you.

Stimulus Funds Distribution in Pennsylvania (by County)

County	Total Stimulus (ARRA) Funds	
	ProPublica Report – Direct Funds Received	Estimate with State-wide Non-traceable Funding
Adams	10,721,456	21,442,912
