"Stock company." An insurance company that:

(1) meets the requirements for admission to do business as a domestic Pennsylvania insurer;

(2) is formed at the direction of the reciprocal insurer or attorney; and

(3) shall be the successor of the reciprocal insurer by the merger of the reciprocal insurer with and into the stock company or by another means approved by the commissioner.

§ 3502. Adoption of plan of conversion.

(a) Plan of conversion.--The following shall apply:

(1) A plan of conversion may not become effective unless the reciprocal insurer seeking to convert to a stock company has adopted:

(i) by the affirmative vote of not less than two-thirds of the subscribers' advisory committee or an equivalent governing body of the reciprocal insurer; or

(ii) in the absence of a governing body, by the board of directors or governing body of the attorney for the reciprocal insurer,

a plan of conversion consistent with the requirements of sections 3503 (relating to contents of plan of conversion) and 3504 (relating to optional provisions of plan of conversion).

(2) Before approval of a plan by the commissioner, the reciprocal insurer may amend or withdraw the plan under paragraph (1) by the affirmative vote of not less than two-thirds of:

(i) its subscribers' advisory committee or an equivalent governing body of the reciprocal insurer; or

(ii) in the absence of a governing body, by the board of directors or governing body of the attorney for the reciprocal insurer.

(b) Eligible subscriber.--A person insured under a group policy that is otherwise an eligible subscriber also shall be an eligible subscriber. A person whose policy becomes effective after the adoption of the plan or the voting record date, if a later date, but before the plan's effective date is not an eligible subscriber but shall have the rights established under section 3507 (relating to rights of subscribers whose policies are issued after adoption of plan and before effective date).

(c) Documents.--The following shall apply:

(1) Before a reciprocal insurer's eligible subscribers may vote on approval of a plan, the reciprocal insurer or the attorney shall file the following documents with the commissioner within 90 days after adoption of the plan:

(i) the plan of conversion, including the independent evaluation of pro forma market value required under section 3503(d).

(ii) the form of notice required under subsection (g);

(iii) the form of proxy to be solicited from eligible subscribers under subsection (h);

(iv) the form of notice required under section 3508 (relating to corporate existence) to persons whose policies are issued after adoption of the plan but before its effective date;

(v) the proposed articles of incorporation and bylaws of the stock company;

(vi) the acquisition of control statement, as required under section 1402 of the act of May 17, 1921 (P.L.682, No.284), known as The Insurance Company Law of 1921; and

(vii) other information as the commissioner may request.

(2) Upon filing of the documents required under this subsection with the commissioner, the reciprocal insurer shall send to eligible subscribers a notice advising eligible subscribers of:

(i) the adoption and filing of the plan;

(ii) the ability of subscribers to provide the commissioner and the reciprocal insurer with comments on the plan within 30 days of the date of the notice; and

(iii) the procedure for making comments.

(d) Notice and approval of plan.--The commissioner shall immediately give written notice to the reciprocal insurer of a decision and, in the event of disapproval, a statement in detail of the reasons for the decision. The commissioner shall approve the plan if the commissioner finds the following:

(1) the plan complies with this chapter;

(2) the plan will not prejudice the interests of the subscribers; and

(3) the plan's method of allocating subscription rights is fair and equitable.

(e) Experts.--At the reciprocal insurer's expense, the commissioner may retain a qualified expert not otherwise a part of the commissioner's staff to assist in reviewing the plan and the independent evaluation of the pro forma market value required under section 3503(d).

(f) Hearing.--The commissioner may order a hearing on whether the terms of the plan comply with this chapter after giving written notice to the reciprocal insurer and other interested persons, all of whom have the right to appear at the hearing.

(g) Notice of subscribers' meeting.--The following shall apply:

(1) Eligible subscribers shall be sent notice of the subscribers' meeting to vote upon the plan. The notice must:

(i) briefly but fairly describe the proposed conversion plan;

(ii) inform the subscriber of the subscriber's right to vote upon the plan; and

(iii) be sent to each subscriber's last known address, as shown on the reciprocal insurer's records, at least 30 days before the time fixed for the meeting.

(2) If the reciprocal insurer holds an annual meeting of subscribers and the meeting to vote upon the plan is held at the annual meeting, only a combined notice of meeting is required.

(h) Voting.--The plan shall be voted upon by eligible subscribers and shall be deemed approved upon receiving the affirmative vote of at least two-thirds of the votes cast by eligible subscribers. Unless the governing documents of the reciprocal insurer establish a different date, the record date for determining subscribers eligible to vote on the plan shall be the date of adoption of the plan or other date set forth in the plan that shall be no less than 30 nor more than 90 days before the date of the meeting. Eligible subscribers entitled to vote upon the proposed plan may vote in person or by proxy. Unless the governing documents of the reciprocal insurer provide otherwise, an eligible subscriber may cast one vote.

(i) Approval of plan.--A merger of the reciprocal insurer with and into the stock company must be approved at the meeting of the subscribers called for the purpose of approving the plan of conversion and shall require for approval or ratification the affirmative vote of at least two-thirds of the votes cast by eligible subscribers.

(j) Documents to be filed following approval.--Within 30 days after the eligible subscribers approved the plan, the stock company shall file the following documents with the commissioner:

(1) the minutes of the meeting of the eligible subscribers at which the plan was approved;

(2) the articles of incorporation and bylaws of the stock company; and

(3) articles of merger for the merger of the reciprocal insurer with and into the stock company. The plan shall be consummated upon the filing of the articles of merger.

§ 3503. Contents of plan of conversion.

(a) Contents.--The following provisions shall be included in a plan of conversion:

(1) The reasons for proposed conversion.

(2) The effect of conversion on existing policies, including a provision that the policies in force on the effective date of conversion continue to remain in force under the terms of the policies, except that the following

rights, to the extent they existed in the reciprocal insurer, shall be extinguished on the effective date of the conversion:

(i) The voting rights of the subscribers provided under the policies.

(ii) The right to share in the surplus of the reciprocal insurer provided for under the policies.

(iii) The assessment provisions provided for under the policies.

(3) The grant of subscription rights to eligible subscribers, including all of the following:

(i) A provision that each eligible subscriber is to receive, without payment, nontransferable subscription rights to purchase a portion of the capital stock of the stock company and that, in the aggregate, the eligible subscribers may, prior to the right of any other party, purchase 100% of the capital stock of the stock company, exclusive of the shares of capital stock required to be sold or distributed to the holders of surplus notes or the shares of capital stock required to be sold or distributed to subscribers under the reciprocal insurer's constituent documents.

(ii) As an alternative to subscription rights in the stock company, the plan may provide that each eligible subscriber is to receive, without payment, nontransferable subscription rights to purchase a portion of the capital stock of one of the following:

(A) the attorney or a holding company that will act as the holding company for the stock company and, in either case, will hold the stock of the stock company; or

(B) an insurance company or other corporation that will purchase all the stock of or otherwise acquire the stock company.

(iii) A provision that the subscription rights shall be allocated in whole shares among the eligible subscribers using a fair and equitable formula. This formula may, but need not, take into account how the different classes of policies of the eligible subscribers contributed to the surplus of the reciprocal insurer or any other factors that may be fair or equitable.

(b) Oversubscription.--The plan shall provide a fair and equitable means for allocating shares of capital stock in the event of an oversubscription to shares by eligible subscribers exercising subscription rights received under subsection (a)(3).

(c) Shares not subscribed.--The plan shall provide that a share of capital stock not subscribed to by an eligible subscriber exercising subscription rights received under subsection (a)(3) shall be sold in a public offering through an underwriter or in another transaction approved by the commissioner. If the number of shares of capital stock not subscribed by eligible subscribers is so small in number or other factors exist that do not warrant the time or expense of a public offering, the plan of conversion may provide for sale of the unsubscribed shares through a private placement or other alternative method approved by the commissioner that is fair and equitable to eligible subscribers.

(d) Market value of capital stock.--The following shall apply:

(1) The plan shall set the price of the capital stock equal to the estimated pro forma market value of the stock

company as successor to the reciprocal insurer based upon an independent evaluation by a qualified expert.

(2) The pro forma market value may be the value that is estimated to be necessary to attract full subscription for the shares, as indicated by the independent evaluation and may be stated as a range of pro forma market value.

(3) If the attorney is a party to the conversion either as the entity that grants subscription rights to subscribers or the attorney is simultaneously acquired by the stock company in connection with the conversion, the incremental value of the attorney shall be included in the estimate of pro forma market value of the stock company as successor to the reciprocal insurer.

(4) The qualified expert shall consider the effect on the pro forma market value of a right of subscribers to a return of capital contained in the subscriber agreement or other operative document of the reciprocal insurer.

(e) Purchase price of capital stock and minimum subscription amount.--The plan shall set the purchase price per share of capital stock equal to a reasonable amount. The minimum subscription amount required of an eligible subscriber, however, cannot exceed $500, but the plan may provide that the minimum number of shares a person may purchase under the plan is 25 shares.

(f) Limitation on amount of capital stock purchase.--The plan shall provide that a person or group of persons acting in concert may not acquire, in the public offering or under the exercise of subscription rights, more than 5% of the capital stock of the stock company or the stock of another corporation that is participating in the conversion plan, as provided in subsection (a)(3)(i), except with the approval of the commissioner. The limitation does not apply to an entity that is to purchase 100% of the capital stock of the converted company as part of the plan of conversion approved by the commissioner.

(g) Limitation on directors and officers.--The plan shall provide that a director or officer or person acting in concert with a director or officer of the reciprocal insurer or the attorney may not acquire capital stock of the stock company or the stock of another corporation that is participating in the conversion plan, as provided in subsection (a)(3)(i), for three years after the effective date of the plan, except through a broker-dealer, without the permission of the commissioner. This subsection does not prohibit the directors and officers from making a block purchase of 1% or more of the outstanding common stock:

(1) other than through a broker-dealer if approved in writing by the department;

(2) through the exercise of subscription rights received under the plan; or

(3) from participation in a stock benefit plan approved by shareholders under section 3509(b) (relating to conflict of interest).

(h) Sale of stock by directors and officers.--The plan shall provide that a director or officer may not sell stock purchased under this section or section 3504(a) (relating to optional provisions of plan of conversion) within one year after the effective date of the conversion.

(i) Holders of surplus notes.--The plan shall provide that the rights of a holder of a surplus note to participate in the conversion shall be governed by the terms of the surplus note and the rights of subscribers to a return of capital shall be

governed by the subscriber agreement or other operative document of the reciprocal insurer.

(j) Repurchase of capital stock.--The plan shall provide that, without the prior approval of the commissioner, a stock company, or a corporation participating in the conversion plan under subsection (a)(3)(i), may not for a period of three years from the date of the completion of the conversion repurchase any of its capital stock from a person. The restriction under this subsection shall not apply to either:

(1) a repurchase on a pro rata basis under an offer made to the shareholders of the stock company or a corporation participating in the conversion plan under subsection (a)(3)(i); or

(2) a purchase in the open market by a tax-qualified or nontax-qualified employee stock benefit plan in an amount reasonable and appropriate to fund the plan.

§ 3504. Optional provisions of plan of conversion.

(a) Subscription rights.--The plan may provide that the directors and officers of the attorney and the reciprocal insurer shall receive, without payment, nontransferable subscription rights to purchase capital stock of the stock company or the stock of another corporation that is participating in the conversion plan, as provided in section 3503(a)(3)(ii) (relating to contents of plan of conversion). The subscription rights shall be allocated among the directors and officers by a fair and equitable formula and shall be subordinate to the subscription rights of eligible subscribers. This chapter may not require the subordination of subscription rights received by directors and officers in their capacity as eligible subscribers.

(b) Maximum share purchase by directors and officers.--The aggregate total number of shares that may be purchased by directors and officers of the attorney and the reciprocal insurer in their capacity under subsection (a) and in their capacity as eligible subscribers under section 3503(a)(3) may not exceed 35% of the total number of shares to be issued if total assets of the reciprocal insurer are less than $50,000,000 or 25% of the total number of shares to be issued if total assets of the reciprocal insurer are more than $500,000,000. For reciprocal companies with total assets of or between $50,000,000 and $500,000,000, the percentage of the total number of shares that may be purchased shall be interpolated.

(c) Liquidation account.--The plan may provide for the creation of a liquidation account for the benefit of subscribers in the event of voluntary liquidation subsequent to conversion in an amount equal to the surplus of the reciprocal insurer, exclusive of the principal amount of a surplus note, on the last day of the quarter immediately preceding the date of adoption of the plan.

Cross References. Section 3504 is referred to in sections 3502, 3503 of this title.

§ 3505. Alternative plan of conversion.

A plan of conversion may be adopted that does not rely in whole or in part upon issuing nontransferable subscription rights to subscribers to purchase stock of the stock company if the commissioner finds that the plan does not prejudice the interests of the subscribers, is fair and equitable and is not

inconsistent with the purpose and intent of this chapter. An alternative plan may:

(1) Include the acquisition or merger of the stock company or a corporation participating in the conversion plan under section 3503(a)(3)(ii) (relating to contents of plan of conversion) by or into a domestic or foreign stock company.

(2) Provide for issuing stock, cash or other consideration to subscribers instead of subscription rights.

(3) Set forth another plan containing any other provisions approved by the commissioner.

§ 3506. Effective date of plan.

A plan is effective when the following have been completed:

(1) The commissioner has approved the plan.

(2) The eligible subscribers have approved the plan.

(3) If the stock company becomes successor to the reciprocal insurer by merger, the eligible subscribers have approved the merger of the reciprocal insurer with and into the stock company and the articles of merger have been filed with the Secretary of the Commonwealth.

§ 3507. Rights of subscribers whose policies are issued after adoption of plan and before effective date.

(a) Notice.--A subscriber shall be sent a written notice regarding the plan upon issuance of a policy if the subscriber's policy is issued after the later of:

(1) the date the proposed plan has been adopted; or

(2) if different, the record date for establishing subscribers eligible to vote on the plan.

The notice shall be sent before the effective date of the plan.

(b) Cancellation and refund.--A subscriber entitled to receive the notice provided for in subsection (a) shall be advised of the subscriber's right of cancellation and to a pro rata refund of unearned premiums.

(c) Limitation on subscribers.--A subscriber who has made or filed a claim under the subscriber's insurance policy may not receive a refund under subsection (b). A person who has exercised the rights provided under subsection (b) may not make or file a claim under the subscriber's insurance policy.

Cross References. Section 3507 is referred to in section 3502 of this title.

§ 3508. Corporate existence.

On the effective date of the conversion, the corporate existence of the reciprocal insurer continues in the stock company. On the effective date of the conversion, the assets, rights, franchises and interests of the reciprocal insurer in and to every species of real, personal and mixed property and the accompanying things in action are vested in the stock company without a deed or other instrument of transfer and the stock company assumes the obligations and liabilities of the reciprocal insurer.

Cross References. Section 3508 is referred to in section 3502 of this title.

§ 3509. Conflict of interest.

(a) Compensation.--A director, officer, agent or employee of the attorney or reciprocal insurer may not receive a fee, commission or other valuable consideration, other than his usual regular salary or compensation, for aiding, promoting or assisting in a conversion under this chapter except as provided for in the plan approved by the commissioner. This subsection does not prohibit the payment of reasonable fees and

compensation to counsel, accountants and actuaries for services performed in the independent practice of their professions, even if the counsel, accountant or actuary is also a director or officer of the attorney or the reciprocal insurer.

(b) Stock benefit plan.--For a period of two years after the effective date of the conversion, a stock company may not implement a non-tax-qualified stock benefit plan unless the plan is approved by a majority of votes eligible to be cast at a meeting of shareholders held not less than six months after the effective date of the conversion.

(c) Costs and expenses.--The costs and expenses connected with a plan of conversion shall be paid for or reimbursed by the reciprocal insurer or the stock company. If the plan provides for participation by another corporation or stock company in the plan under section 3503(a)(3)(ii) (relating to contents of plan of conversion), the corporation or stock company may pay for or reimburse all or a portion of the costs and expenses connected with the plan.

Cross References. Section 3509 is referred to in section 3503 of this title.

§ 3510. Failure to give notice.

If the reciprocal insurer complies substantially and in good faith with the notice requirements of this chapter, the reciprocal insurer's failure to send a subscriber the required notice does not impair the validity of an action taken under this chapter.

§ 3511. Limitation on actions.

An action challenging the validity of or arising out of acts taken or proposed to be taken under this chapter shall be commenced no later than 30 days after the later of the approval of the plan by the commissioner or the deemed approval of the plan by a vote of the eligible subscribers.

§ 3512. Reciprocal insurer insolvent or in hazardous financial condition.

(a) Waiver of requirements.--If a reciprocal insurer seeking to convert is insolvent or is in hazardous financial condition according to information supplied in its most recent annual or quarterly statement filed with the department or as determined by a financial examination performed by the department under Article IX of the act of May 17, 1921 (P.L.789, No.285), known as The Insurance Department Act of 1921, the requirements of this chapter, including notice to and policyholder approval of the plan of conversion, may be waived at the discretion of the commissioner if requested by the attorney or the reciprocal insurer. If a waiver under this section is ordered by the commissioner, the reciprocal insurer shall specify the following in its plan of conversion:

(1) The method and basis for the issuance of the stock company's shares of its capital stock to an independent party in connection with an investment by the independent party in an amount sufficient to restore the stock company, as successor to the reciprocal insurer, to a sound financial condition.

(2) That the conversion shall be accomplished without granting subscription rights or other consideration to the past, present or future subscribers.

(b) Authority of commissioner.--This section shall not alter or limit the authority of the commissioner under the provisions of law, including, but not limited to, Article V of The Insurance Department Act of 1921.

§ 3513. Rules and regulations.

The commissioner may promulgate rules and regulations to administer and enforce this chapter.

§ 3514. Laws applicable to stock company.

(a) Control of stock company.--A reciprocal insurer may not convert under this chapter if, as a direct result of the conversion, a person or the person's affiliates acquire control of the stock company, unless that person and the person's affiliates comply with the provisions of section 1402 of the act of May 17, 1921 (P.L.682, No.284), known as The Insurance Company Law of 1921. For purposes of this subsection, the term "control" shall have the meaning provided in section 1401 of The Insurance Company Law of 1921.

(b) Stock insurance company rules.--Except as otherwise specified in this chapter, a stock company resulting from the conversion of a reciprocal insurer under this chapter shall have and may exercise the rights and privileges and shall be subject to the requirements and regulations imposed upon stock insurance companies formed under this act and other laws of this Commonwealth relating to the regulation and supervision of insurance companies, but it may not exercise rights or privileges that other stock insurance companies may not exercise.

§ 3515. Licensing of stock company and commencement of business as an insurance company.

The commissioner may waive the minimum surplus requirement of a stock company in connection with the initial licensing of a stock company that will be the successor to a reciprocal insurer. The stock company may not engage in the business of insurance as a stock company until the completion of the merger with the reciprocal insurer and compliance with the provisions of this chapter.

§ 3516. Amendment of policies.

By endorsement or rider approved by the commissioner and sent to the policyholder, a reciprocal insurer may simultaneously with or after the adoption of a plan of conversion amend an outstanding insurance policy for the purpose of extinguishing a right of the holder of the policy to share in the surplus of the reciprocal insurer. This amendment shall be void if the plan of conversion is not submitted to the commissioner or, if submitted, is disapproved by the commissioner or, if approved by the commissioner, is not approved by the eligible subscribers on or before the first anniversary of its approval by the commissioner.

§ 3517. Prohibition on acquisitions of control.

Except as otherwise specifically provided in section 3503 (relating to contents of plan of conversion), from the date a plan of conversion is adopted until the effective date of the plan of conversion, a person may not directly or indirectly offer to acquire, make an announcement to acquire or acquire in any manner, including making a filing with the department for acquisition under a statute or regulation of this Commonwealth, the beneficial ownership of 10% or more of a class of a voting security of the attorney or the stock company that will be the successor of the reciprocal insurer or of a person that controls the voting securities of the attorney or the stock company that will be the successor of the reciprocal insurer.

(2) This section shall apply to MA and CHIP managed care plans beginning on or after January 1, 2026.

After a covered person or plan sponsor provides consent in accordance with section 5003 (relating to electronic delivery of insurance notices or documents), if a change in the hardware or software requirements necessary to access or retain a notice or document to be delivered by electronic means creates a material risk such that the covered person will not be able to access or retain the notice or document for which the consent applies, an insurer may not deliver by electronic means a notice or document to the covered person unless the insurer complies with the requirements of section 5003 and provides the covered person with a statement that describes all of the following:

(1) The revised hardware and software requirements for access to and retention of a document delivered by electronic means.

(c) **Prior consent.**--This chapter shall not apply to a notice or document delivered by electronic means by an insurer before the effective date of this subsection to a covered person who, prior to the effective date of this subsection, provided consent to the insurer to receive a notice or document delivered by electronic means from the insurer.

(d) **Validity or enforceability.**--The validity or enforceability of a contract or policy of an insurer executed by a covered person shall not be denied solely because of the failure of the insurer to obtain electronic consent or confirmation of consent of the covered person in accordance with this chapter if the notice or document is delivered in paper form.

§ 5006. Rescission of delivery by electronic means.

(a) **Procedures.**--No later than 30 days after the effective date of this subsection, an insurer shall develop procedures by which a covered person may opt out of delivery by electronic means.

If an insurer has a documented record from a covered person indicating approval by the covered person for a notice or document to be delivered by electronic means from the insurer before the effective date of this section and the insurer intends to deliver by electronic means an additional notice or document under this chapter, prior to providing the additional notice or document for delivery by electronic means, the insurer shall comply with sections 5003 (relating to electronic delivery of insurance notices or documents) and 5004 (relating to changes in hardware or software requirements) and provide the covered person with a statement that describes the following:

(1) The insurer attempts to deliver the notice or document by electronic means and has a reasonable basis for

believing that the notice or document has not been received by the covered person.

(2) The insurer becomes aware that the email address provided by the covered person to the insurer is no longer valid.

(b) Confidentiality.--Nothing in this chapter shall be construed to preclude the ability of a covered person to request confidential communication of the covered person's protected health information as permitted by the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191, 110 Stat. 1936).

(ii) If the insurer continues to make the expired policy or endorsement available on the insurer's publicly accessible Internet website, keep the plan sponsor's user identification active for a period of not less than five years.

(c) Printable format.--If an insurer elects to post an insurance policy and endorsement on the insurer's publicly accessible Internet website in lieu of mailing or delivering the policy and endorsement to the covered person, the insurer shall post the policy and endorsement in a manner that enables the plan sponsor and producer of record to print and save the policy and endorsement using a program or application that is widely available on the Internet and free to use.

(d) Description.--The insurer shall provide the following information to the plan sponsor in or simultaneous with each declaration page provided at the time of issuance of an initial insurance policy and each renewal of the policy:

(b) Exemption.--The provisions of subsection (a) of this section shall not apply to any nonprofit corporation incorporated with the approval of the department under the former provisions of section 218 of the Nonprofit Corporation Law of 1933. For the purposes of this chapter such a corporation shall be deemed to be a holder of a certificate of authority issued under this section.

§ 6122. Action as agent under Federal and other programs.

agency or organization thereunder and may perform administrative services similar or related to those which may be required of an agency or organization thereunder in connection with a Federal, State or local governmental health care program and may perform administrative services similar or related to those which may be required of such an agency or organization in connection with or associated with nongovernmental organizations, individuals, groups and agencies in the health care field.

(b) Legislative amendment of stated purposes of existing corporations.--The stated purposes of all existing hospital plan corporations are hereby amended so as to include the performance of the activities authorized by subsection (a) of this section.

§ 6123. Investment of funds.

Any statute to the contrary notwithstanding, funds of any hospital plan corporation, equal to its reserves, shall be invested in compliance with the requirements of law for the investment of the capital and reserves of life insurance companies. The funds of any such corporation, equal to its surplus, shall be invested in compliance with the requirements of law for the investment of the surplus of life insurance companies.

§ 6124. Rates and contracts.

(a) General rule.--The rates charged to subscribers by hospital plan corporations, all rates of payments to hospitals made by such corporations pursuant to the contracts provided for in this chapter, all acquisition costs in connection with the solicitation of subscribers to such hospital plans, the reserves to be maintained by such corporations, the certificates issued by such corporations representing their agreements with subscribers, and any and all contracts entered into by any such corporation with any hospital, shall, at all times, be subject to the prior approval of the department.

(b) Procedure.--Every application for such approval shall be made to the department in writing and shall be subject to the provisions of subsections (c) through (f) of section 6102 of this title (relating to certification of hospital plan corporations) except that the department may substitute publication in the Pennsylvania Bulletin of notice of reasonable opportunity to submit written comments for publication of opportunity for hearing in any case where the right to an oral hearing is not conferred by the Constitution of the United States or the Constitution of Pennsylvania. Within 60 days after the filing of the application the department shall approve or refuse such application.

(c) Maintenance of contractual relationships.--

(1) Declaration of necessity.--It is hereby found that many subscribers to nonprofit hospital plans make payments over long periods of time prior to becoming entitled to benefits under such a plan and that it is important in the public interest that the reasonable expectations of such subscribers as to coverage should be fulfilled if possible. It is hereby declared to be essential for the maintenance of the health of the residents of this Commonwealth that subscribers to nonprofit hospital plans be assured receipt of the hospitalization and related health benefits prepaid by them through payment of the rates approved under this chapter and charged by a hospital plan corporation and that to accomplish this essential purpose termination of contracts between hospital plan corporations and hospitals entered into pursuant to section 6121 (relating to eligible

hospitals) and this section be subject to prior approval by the department as provided in this subsection.

(2) Notification period.--No contract between a hospital plan corporation and any hospital providing for the rendering of hospitalization to subscribers to the hospital plan shall be terminated unless the party seeking such termination gives 90 days advance written notice to the other party to the contract and to the department of the proposed termination.

(3) Hearing period.--Whenever a termination subject to paragraph (2) involves contracts with hospitals having more than 5% of the beds in the area served by a hospital plan corporation, the department shall hold public hearings on at least 15 days notice for the purpose of investigating the reasons for the termination. Pending completion of said investigation by the department, termination of the hospital contracts shall be suspended for a period not to exceed six months from the expiration of the period provided for in paragraph (2). All terms and conditions of the contract between the hospital plan corporation and the hospital or hospitals shall continue in full force and effect during said investigation by the department. Based on the record made during the hearings, the department shall make specific findings as to the facts of the dispute and shall either approve termination of the contracts or recommend such terms for continuation of the contract as are in the public interest, based upon the facts, the right of a hospital to be paid its costs for hospitalization services to subscribers and the need of subscribers for efficient, reliable hospitalization at a reasonable cost.

(4) Negotiation period.--If the department recommends terms for continuation of the contract, the hospital plan corporation and the hospitals involved shall renew their negotiations in order to determine whether a new agreement can be reached substantially on the basis of the terms for continuation recommended by the department and pending such negotiations, the termination of the hospital contracts shall be suspended for a further period not to exceed 90 days from the date of the decision of the department. If the hospital plan corporation and the hospitals are unable to consummate a new contract within said further period of 90 days, they shall so advise the department. The department shall in that event approve termination of the contracts effective at the end of a further period of 30 days and shall prescribe the form and extent of notice which the hospital plan corporation shall use in advising its subscribers that hospitalization in the hospitals involved is not covered by a contract between the hospital plan corporation and such hospitals.

(5) Retroactivity.--Upon the settlement of any dispute between a hospital plan corporation and any hospital pursuant to paragraphs (2) and (4), the terms and conditions of any new contract shall be retroactive to the date of expiration of the contract previously in effect between the parties.

§ 6125. Reports and examinations.

(a) Annual report.--Every hospital plan corporation shall on or before March 1 of each year, file with the department a statement, verified by at least two of the principal officers of the corporation showing its condition at the end of the preceding calendar year. Such statement shall be in such form, and shall contain such matters, as the department shall prescribe.

(b) Examination.--Every hospital plan corporation shall be subject to examination not less frequently than every three years by the department and its agents, who shall have free access to all the books, records, papers and documents that relate to the business of the corporation, and the power to examine the officers, agents, employees and subscribers to the nonprofit hospital plan of the corporation, under oath, in relation to the affairs, transactions and financial condition of the corporation. (b) Annual valuation.--The commissioner shall annually value, or cause to be valued, the reserve liabilities for all outstanding life insurance policies and annuity and pure endowment contracts of each company doing business in this Commonwealth. The commissioner may certify the amount of reserves.

(c) Calculation.--In calculating reserves, the commissioner may use group methods and approximate averages for fractions of a year or otherwise.

(d) Other jurisdictions.--In lieu of the valuation of the reserves required of a foreign or alien company, the commissioner may accept a valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when the valuation complies with the minimum standard provided in this chapter.

(e) Minimum standard.--The minimum standard for the valuation of policies and contracts issued prior to the operative date of section 410A of The Insurance Company Law of 1921 shall be as follows:

(1) The net value of all outstanding policies of life insurance, issued by the company prior to January 1, 1890, shall be computed upon the basis of the American experience table of mortality, with interest at not less than 4.5% and not more than 6% per year.

(3) The net value of all outstanding policies of life insurance, issued on and after January 1, 1903, shall be computed on the American experience table of mortality, with interest at 3.5% per year, but a company may value its group term insurance policies, under which premium rates are not guaranteed for a period in excess of five years, according to the American men ultimate table of mortality, with interest at 3.5% per year.

(4) The net value of all policies of life insurance, issued on and after January 1, 1921, where the premiums are payable monthly or more frequently, shall be computed according to the American experience table of mortality, with interest at 3.5% per year, but a company may voluntarily value its industrial policies according to the standard industrial mortality table, with interest at 3.5% per year.

(5) The net value of a policy at any time shall be taken to be the single net premium which will, at that time, affect the insurance, less the value at that time of the future net premiums called for by the table of mortality and rate of interest designated.

(6) Except as otherwise provided in sections 7116(a) (relating to computation of minimum standard for annuities) and 7117(a) (relating to computation of minimum standard by calendar year of issue) for group annuity and pure endowment contracts, the legal minimum standard for valuation of annuities issued after January 1, 1912, shall be computed according to McClintock's table of mortality among annuitants, with interest at 3.5% per year, but the following shall apply:

(i) For annuities and pure endowments purchased under group annuity and pure endowment contracts, the legal minimum standard may, at the option of the company, be computed according to the 1971 Group Annuity Mortality Table or any modification of this table approved by the commissioner, with interest at 5% per year.

(ii) Annuities deferred 10 or more years, and written in connection with life or term insurance, shall be valued upon the same mortality table from which the consideration or premiums were computed, with interest at not more than 3.5% per year.

(7) At any time and under any of its policies of life insurance, a company may elect to reserve on the following, with its obligations under these policies to be valued accordingly:

(i) the American experience table of mortality with a lower rate of interest, but at a rate not less than 2% per year; or

(ii) the American men ultimate table of mortality, with any modification and extension below 20 years of age as may be approved by the commissioner, with interest at a rate not less than 2% nor more than 3.5% per year.

(8) On or after the operative date of section 410A of The Insurance Company Law of 1921, reserves for any policies or contracts may be calculated, at the option of the company, according to any standard which produces greater aggregate reserves for all these policies or contracts than the standard in use by the company immediately prior to the exercise of the option.

(9) With the approval of the commissioner, a company that adopts a standard under paragraph (8) may adopt a lower standard of valuation for any policies or contracts if that lower standard is not lower than:

(i) the minimum reserves provided under this section;

(ii) the standard specified in the policies or contracts; or

(5) Except in cases of fraud or willful misconduct, a qualified actuary shall not be liable for damages to any person, other than the insurance company or fraternal benefit society and the commissioner, for any act, error, omission, decision or conduct with respect to the actuarial opinion.

§ 7117. Computation of minimum standard by calendar year of issue.

(a) Applicability.--The interest rates used in determining the minimum standard for the valuation of the following shall be the calendar year statutory valuation interest rates as defined in this section:

(1) Life insurance policies issued in a particular calendar year on or after the operative date of section 410A(e) of The Insurance Company Law of 1921.

(2) Individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1981.

(3) Annuities and pure endowments purchased in a particular calendar year on or after January 1, 1981, under group annuity and pure endowment contracts.

(4) The net increase, if any, in a particular calendar year after January 1, 1981, in amounts held under guaranteed interest contracts.

(b) Calendar year statutory valuation interest rates.--The following shall apply:

(1) Subject to paragraph (2), the calendar year statutory valuation interest rates, I, shall be determined as follows and the results rounded to the nearest 0.25%:

(i) For life insurance:

$$I = .03 + W(R1 - .03) + W/2(R2 - .09).$$

Where R1 is the lesser of R and .09, R2 is the greater of R and .09, R is the reference interest rate defined in this section and W is the weighting factor defined in this section.

(ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options:

$$I = .03 + W(R1 - .03).$$

Where R1 is the lesser of R and .09, R2 is the greater of R and .09, R is the reference interest rate defined in this section and W is the weighting factor defined in this section.

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in subparagraph (ii):

(A) The formula for life insurance stated in subparagraph (i) shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of 10 years.

(B) The formula for single premium immediate annuities stated in subparagraph (ii) shall apply to annuities and guaranteed interest contracts with guarantee duration of 10 years or less.

(iv) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in subparagraph (ii) shall apply.

(v) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in subparagraph (ii) shall apply.

(2) The following shall apply:

(i) If the calendar year statutory valuation interest rate for a life insurance policy issued in any calendar year determined without reference to this subparagraph differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than 0.5%, the calendar year statutory valuation interest rate for the life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year.

(ii) For purposes of applying subparagraph (i), the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980, using the reference interest rate defined in 1979, and shall be determined for each subsequent calendar year regardless of the operative date of section 410A(e) of The Insurance Company Law of 1921.

(c) Weighting factors.--The weighting factors referred to in subsection (b) shall be as follows:

(1) For life insurance, the guarantee duration shall be the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values, or both, which are guaranteed in the

original policy. Weighting factors for life insurance shall be as provided in the following table:

Guarantee Duration (Years)	Weighting Factors
10 or less	.50
More than 10, but not more than 20	.45
More than 20	.35

(2) Weighting factors for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options shall be .80.

(3) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in paragraph (2), shall be as specified in subparagraphs (i), (ii) and (iii), according to the rules and definitions in subparagraphs (iv), (v) and (vi):

(i) For annuities and guaranteed interest contracts valued on an issue year basis, the following table shall apply:

Guarantee Duration (Years)	Weighting Factor for Plan Type		
	A	B	C
5 or less	.80	.60	.50
More than 5, but not more than 10	.75	.60	.50
More than 10, but not more than 20	.65	.50	.45
More than 20	.45	.35	.35

(ii) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in subparagraph (i) shall be increased by .15 for plan type A, .25 for plan type B and .05 for plan type C.

(iii) For annuities and guaranteed interest contracts valued on an issue year basis, other than those with no cash settlement options, that do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis that do not guarantee interest rates on considerations received more than 12 months beyond the valuation date, the factors shown in subparagraph (i) or derived in subparagraph (ii) shall be increased by .05 for plan types A, B and C.

(iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of 20 years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

(v) Each plan type referenced in this paragraph shall be defined as follows:

(A) "Plan type A." A plan in which at any time the policyholder may withdraw funds only:

(I) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company;

(II) without an adjustment but in installments over five years or more;

(III) as an immediate life annuity; or

(IV) no withdrawal permitted.

(B) "Plan type B." A plan in which, before expiration of the interest rate guarantee, the policyholder may withdraw funds only:

(I) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company;

(II) without an adjustment but in installments over five years or more; or

(III) no withdrawal permitted.

At the end of interest rate guarantee, funds may be withdrawn without an adjustment in a single sum or installments over less than five years.

(C) "Plan type C." A plan in which the policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either:

(I) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or

(II) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

(vi) The following shall apply:

(A) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis.

(B) Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options shall be valued on an issue year basis.

(C) As used in this section:

(I) An issue year basis of valuation shall refer to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract.

(II) A change in fund basis of valuation shall refer to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.

(d) Reference interest rate.--The reference interest rate referred to in subsection (b) shall be defined as follows:

(1) For life insurance, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year preceding the year of issue, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(2) For single premium immediate annuities and for annuity benefits involving life contingencies arising from

other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or year of purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(3) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in paragraph (2), with guarantee duration in excess of 10 years, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(4) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in paragraph (2), with guarantee duration of 10 years or less, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(5) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(6) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in paragraph (2), the average over a period of 12 months, ending on June 30 of the calendar year of the change in the fund, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(e) Alternative method to determine reference interest rate.--If the monthly average of the composite yield on seasoned corporate bonds is no longer published by Moody's Investors Service, Inc. or if NAIC determines that the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc. is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate adopted by NAIC and approved by regulation may be substituted.

§ 7118. Reserve valuation method for life insurance and endowment benefits.

(a) Uniform insurance amount and premiums.--Except as otherwise provided in sections 7119 (relating to reserve valuation method for annuity and pure endowment benefits), 7122 (relating to reserve calculation for valuation net premium exceeding gross premium charged) and 7124 (relating to minimum standard for accident and health insurance contracts), for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums, reserves according to the commissioners reserve valuation method shall be the excess, if any, of the

present value, at the date of valuation, of the future guaranteed benefits provided for by those policies, over the then present value of any future modified net premiums therefor. The modified net premiums for a policy shall be the uniform percentage of the respective gross premiums for the benefits so that the present value, at the date of issue of the policy, of all modified net premiums shall be equal to the sum of the then present value of the benefits provided for by the policy and the excess of paragraph (1) over paragraph (2), as follows:

(1) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per year payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the 19-year premium whole life plan for insurance of the same amount at an age one year greater than the age at issue of the policy.

(2) A net one-year term premium for the benefits provided for in the first policy year.

(b) First-year excess.--For a life insurance policy issued on or after January 1, 1985, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for the excess and which provides an endowment benefit or a cash surrender value or a combination in an amount greater than the excess premium, reserves according to the commissioners reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined under this subsection as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than the excess premium shall, except as otherwise provided in section 7122, be the greater of the reserve as of the policy anniversary calculated as described in subsection (a) and the reserve as of the policy anniversary calculated as described in subsection (a), but with:

(1) The value defined in subsection (a) being reduced by 15% of the amount of this excess first year premium.

(2) All present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date.

(3) The policy being assumed to mature on that date as an endowment.

(4) The cash surrender value provided on that date being considered as an endowment benefit.

In making the comparison under this subsection, the mortality and interest bases stated in sections 7115 (relating to computation of minimum standard) and 7117 (relating to computation of minimum standard by calendar year of issue) shall be used.

(c) Consistent method.--Reserves according to the commissioners reserve valuation method shall be calculated by a method consistent with the principles of this section, except that any extra premiums charged because of impairments or special hazards shall be disregarded in the determination of modified net premiums, for:

(1) Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums.

(2) Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation,

established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code of 1986 (Public Law 99-514, 26 U.S.C. § 408).

(3) Disability and accidental death benefits in all policies and contracts.

(4) All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts.

(a) Applicability.--This section shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code of 1986 (Public Law 99-514, 26 U.S.C. § 408).

(b) Calculation.--The following shall apply:

(1) Reserves according to the commissioners annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in the contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by the contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of the contract, that become payable prior to the end of the respective contract year.

(2) The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate or rates specified in the contracts for determining guaranteed benefits.

(3) The valuation considerations shall be the portions of the respective gross considerations applied under the terms of the contracts to determine nonforfeiture values.

§ 7120. Minimum reserves.

(a) Amount calculated.--A company's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued on or after May 17, 1921, shall not be less than the aggregate reserves calculated by using the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for the policies and in accordance with the methods set forth in:

(1) Section 7118 (relating to reserve valuation method for life insurance and endowment benefits).

(3) Section 7122 (relating to reserve calculation for valuation net premium exceeding gross premium charged).

(4) Section 7123 (relating to reserve calculation for indeterminate premium plans).

(b) Amount necessary to render actuarial opinion.--The aggregate reserves for all policies, contracts and benefits shall not be less than the aggregate reserves determined by the appointed actuary to be necessary to render the opinion required by section 7113 (relating to actuarial opinion of reserves prior to operative date of valuation manual) or 7114 (relating to actuarial opinion of reserves on or after operative date of valuation manual).

§ 7121. Optional reserve calculation.

(a) Issuance prior to May 17, 1921.--Reserves for policies and contracts issued prior to May 17, 1921, may be calculated, at the option of the company, according to any standards that produce greater aggregate reserves for all these policies and contracts than the minimum reserves required by law.

(b) Issuance on or after May 17, 1921.--Reserves for any category of policies, contracts or benefits established by the commissioner, issued on or after May 17, 1921, may be calculated, at the option of the company, according to any standards that produce greater aggregate reserves for the category than those calculated according to the minimum standard provided under this chapter, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be greater than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided in the policies or contracts.

(c) Adoption of alternative standards.--The following shall apply:

(1) Subject to paragraph (2), a company that adopts at any time a standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard provided under this chapter may adopt a lower standard of valuation with the approval of the commissioner, but not lower than the minimum provided in this chapter.

(2) For the purposes of this section, the holding of additional reserves previously determined by the appointed actuary to be necessary to render the opinion required by section 7113 (relating to actuarial opinion of reserves prior to operative date of valuation manual) or 7114 (relating to actuarial opinion of reserves on or after operative date of valuation manual) shall not be deemed to be the adoption of a higher standard of valuation.

Cross References. Section 7121 is referred to in section 7103 of this title.

§ 7122. Reserve calculation for valuation net premium exceeding gross premium charged.

(a) Calculation of minimum reserve.--The following shall apply:

(1) If in any contract year the gross premium charged by a company on a policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for the policy or contract shall be the greater of:

(i) The reserve calculated according to the mortality table, rate of interest and method actually used for the policy or contract.

(ii) The reserve calculated by the method actually used for the policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium.

(2) The minimum valuation standards of mortality and rate of interest referred to in this subsection are those standards stated in sections 7115 (relating to computation of minimum standard) and 7117 (relating to computation of minimum standard by calendar year of issue).

(b) How to apply this section for certain policies.--The following shall apply:
